1. Applicant's response filed 12/31/02 has been entered as paper number 13.
2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) do not apply to the examination of this application as the application being examined was not (1) filed on or after November 29, 2000, or (2) voluntarily published under 35 U.S.C. 122(b). Therefore, this application is examined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 19-42 are rejected under 35 U.S.C. 102(e) as being anticipated by Atchley 5,493,315. Atchley discloses a fuel pump system which includes a display means (col 4 lines 27+), an input means for users selections (col 4 lines 40+), memory means and processing unit (col 4 lines 60+) and a card reader which can read data from a magnetic stripe on a card (col 4 lines 3+).
4. Applicant's arguments filed 12/31/02 have been fully considered but they are not persuasive. Applicant argues that Atchley does not show element d.) of independent claim 19. The examiner respectfully disagrees. As seen in column 4, and throughout the entire

Art Unit: 2876

specification, Atchley discloses means for inputting information regarding a customer's desires for "further" (examiner's words) transactional information other than fueling information. It is this "further" transactional information, such as car wash information, which is selectively chosen and associated with the customer's total purchase. It is disclosed that the controller communicates with a remote credit card verification authority to ascertain whether a transaction to be charged is authorized. Thus, the Atchley reference discloses "predefined" transaction selectively designed by the applicant.

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

All Internet e-mail communications will be made of record in the application file.
